SUBJECT Article published in *Philateli-Graphics*

Dear Mr. Max,

Many thanks for your letter informing us of the article on the WNS system published in your magazine *Philateli-Graphics*.

This article is an excellent contribution to our efforts to promote the UPU-managed numbering system and to encourage philatelists and philately industry players alike to consult the site for their own information.

The UPU International Bureau's philately department has also taken note of the other articles included in the April 2007 edition of the magazine, and found them to be of great cultural interest.

Your magazine will be added to our worldwide philatelic publications mailing list, meaning that you will be kept informed of UPU activities and actions to promote philately.

Yours sincerely,

Edouard Dayah  
Director General
